

Semco Maritime have a fantastic opportunity for a Manpower Manager to lead the Manpower Services division on a permanent full-time basis.

This is an exciting time to join Semco to be at the forefront of a rapidly developing section of the business.

Key Responsibilities:

- To manage Semco Maritime's newly established Manpower Service division
- Ability to sell Semco Maritime's current Manpower Services for Electrical/Instrumentation, PLC Systems, H/M/L Voltage, Fire and Gas Systems including lighting, Rope Access, EPC Services and Project and Planning Management
- Ability in the future to sell our Services for Production Services, Supervisors, Inspection and Reporting, HSE & Medic, Fabric Maintenance, Welding, Pipefitting, Platers and Mechanical Services as we grow the UK Business.
- Capable in managing our sub-contractor model
- Responsibility for Sales, Service Delivery and the P & L for that Department
- Develop opportunities for our growing Business
- Work closely with Supply Chain to ensure efficient utilisation of manpower

We offer

We offer an exciting job in a dynamic working environment with excellent opportunities for professional challenges and development. Semco Maritime is an attractive place to work, where results are achieved through commitment, teamwork and working together with a high degree of professionalism and dedication in an informal environment

Key Skills and Experience Required:

- Experience in a similar Manpower role essential
- Able to influence to a high level
- Excellent Team Player, but with the capability to work individually
- Proven track record of growing business and headcounts in this area
- Must have proven Topside Manpower Experience in a Service Environment
- Experience working within a Management Team
- Ability to attract Talent to our Business
- Regular trips to Denmark and other Semco Maritime locations will be required

The role is based in Aberdeen with Hybrid working available
