

PLATER

Due to continued growth the Company are looking to recruit local experienced (minimum 6 years) time served Fabricators.

This role is based at our workshop in Stonehaven with excellent opportunities available for overseas, offshore and site work.

Platers need to have experience of working with all types of plate/sections, ferrous & nonferrous materials. Pipefitting experience would be beneficial. Interpretation of engineering drawings is essential.

Valid offshore certification beneficial but not essential.

Excellent working conditions, remuneration package and benefits are available. Hourly rate depends on experience, based on a 39 hour working week.

All applicants must be eligible to live and work in the UK and be capable of commuting daily to our Stonehaven facility.
